

Cable Covers

the part number for J.C. Whitney on the cable covers is - 01RQ1999A

This is the on-line sku number. If you go to jcwhitney.com, click on motorcycle, then click on cruisers, and then at the left, click on your brand. SUZUKI, that's a no brainer..... You will see on the left side menu, the very first choice is (ACCENT TRIM) click on that, then scroll down, you will see the cable covers.

You will need at least three pieces of the five foot sections. Again, make sure you order the 3/8 size.

You can cut these with scissors if you had to, I used wire cutters though. They really are not bad for the price.
